DETAILED ACTION

Response to Amendment

Newly submitted claims 28-32 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the claims are not readable on the elected inventions and are not from the original claims after the restriction.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 28-32 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim 1 is rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for R2 or R3 is hydrogen, as disclosed at page 6, line 6 in the specification, does not reasonably provide enablement for the exclusion of an alkyl group as R2 or R3, as disclosed at page 6, line 7 in the specification. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the invention commensurate in scope with these claims for the reasons as stated above.

Applicant's arguments filed 09/28/2007 have been fully considered but they are not persuasive. ***

The rejection is maintained for the reasons as stated above and for the reasons as stated in the last Office action.

Claims 1-6 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Leong (5,194,581).

Note that claim 1 has been amended to include a negative limitation which does not have support from the specification "wherein if one of R2 and R3 is hydrogen, the other of R2 and R3 is not an alkyl group".

The reference does disclose the group -NH-R1 in that H corresponds to the claimed either R2 or R3 as hydrogen, and R1 corresponds to the claimed other of R2 and R3, and can be halogen, nitro, hydroxyl, amino, carboxyl, alkoxy---(see col. 5, lines 5-17, which are not alkyl groups.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
